RECALL OF HUSQVARNA TC-FC MODELS OF MODEL YEAR 2016

ALL MARKETS – HUSQVARNA MOTORCYCLES RECALLS MOTOCROSS BIKES OF THE LATEST MODEL YEAR 2016 TO THE WORKSHOPS OF AUTHORIZED HUSQVARNA DEALERS IN ORDER TO REVIEW AND REPLACE THE FRONT WHEEL SPOKES.

During routine testing in ongoing production, Husqvarna Motorcycles discovered that due to variations in the spoke manufacturing process, some spokes on the front wheels of TC 125, TC 250 and FC 250, FC 350, FC 450 MY2016 models may exhibit quality deviations.

Depending on where they are fitted in the wheel, care and spoke tension, it is possible that individual spokes may break while riding. This can overload the remaining intact spokes and consequently break them.

Customers of affected and already distributed motorcycles are informed by a personal letter and are asked to immediately contact an authorized [Husqvarna Motorcycles dealer](#) to arrange an appointment. In addition, customers can check online in the “[Service](#)” area on the Husqvarna Motorcycles website if their motorcycle is affected by the recall.

The review or the replacement of the front wheel spokes or the affected front wheels can be carried out by authorized Husqvarna Motorcycles dealers only. This check is a guarantee that is completely free of charge.
