

1.1 Husqvarna Motorcycles service times

As of June 2022

Valid up to and including

- Model year 2022 (Offroad)
- Model year 2022 (Street)

The service times apply to the scope of service specified in the Owner's Manual. The calculated times may vary due to a higher or lower annual mileage. Your authorized Husqvarna Motorcycles dealer will tell you the exact scope of service and time required. Assembling of non-standard accessories, cleaning work and any complications will be charged additionally. Any further work that results from the compulsory work or from the recommended work must be ordered separately and invoiced separately. For individual country variants, the service times may differ, depending on the equipment. Service intervals are repeated according to time elapsed or mileage, whichever occurs first.

For models where a time period is specified, the time required is calculated individually depending on the recommended work.

Info

Approximate time in minutes (1 h = 60 min).

* Times are calculated including valve clearance adjustment.

** Service time includes either minor engine service or minor and major engine service.
